

Bid Specifications

Date Originated: 05/05/15	Revision: B	Revision Date: 01/01/22	Standards No. 5000205
Subject: Folding Step with Lighting Options			

Folding Steps

Innovative Controls (large round or small rectangular) Folding Steps shall be installed. Each step shall be designed to meet or exceed strength/load, size and traction requirements of the NFPA. Each step shall be (chrome plated or black powder coated with clearcoat) and include a molded gasket to help prevent water ingress and to keep the step mount from damaging painted surfaces. The step shall include a weep hole drain at the bottom to allow any water to escape the assembly.

The folding step shall be spring loaded to hold the step in the upright stowed position while in transit and when not in use.

The step shall (or shall not) include a step light option that is (white, blue, amber, red) in color, a down light option that is (white, blue, amber, red) in color, and a (backlit or non-lit) logo area option. The logo area should feature a Ferrara logo.

There shall be ____ steps installed. The locations shall be:
